Teacher:	Ed Rush	Date:	11-02-2026
CEFR Level:	B1	Duration:	45 Minutes
Lesson Shape:	E (Receptive Skills)	Assessment:	N/A
Main Focus:	Listening	Materials:	Oxford Future Directions Workbook Listening Unit 2 (p. 19)

Main Aim: By the end of the lesson, learners will have practiced identifying advantages and disadvantages in the context of a listening text about car-free zones and map navigation.

Differentiated Input

Pedagogical Rationale: Differentiated Input & Learner Autonomy

Support is provided by pre-teaching key vocabulary (pedestrians, air pollution, handicapped) using visual aids. The listening task is chunked to reduce cognitive load: a gist question first, followed by detailed data extraction. Fast finishers during the vocabulary stage can write their own example sentences.
